**Biosynthesis and Degradation**

Biosynthesis of glucagon in isolated pancreatic islets of guinea pigs.
*By* C. Hellerström, S. L. Howell, J. C. Edwards, A. Andersson & C.-G. Östenson 13

*Appendix:* Radioautographic localization of labelled proteins after incubation of guinea-pig islets of Langerhans with [$^3$H]tryptophan.
*By* S. L. Howell, C. Hellerström & M. Whitfield 22

Microbial degradation of hydrocarbons. Catabolism of 1-phenylalkanes by *Nocardia salmonicolor*.
*By* F. S. Sariaslani, D. B. Harper & I. J. Higgins 31

Some inhibitory effects of (−)-emetine on growth of Ehrlich ascites carcinoma.
*By* R. K. Johnson & W. R. Jondorf 87

Metabolic studies on myelin. Evidence for a precursor role of a myelin subfraction.
*By* H. C. Agrawal, J. L. Trotter, R. M. Burton & R. F. Mitchell 99

**Bioenergetics**

Equilibrium relations between the oxidation–reduction reactions and the adenosine triphosphate synthesis in suspensions of isolated liver cells.
*By* D. F. Wilson, M. Stubbs, M. Erecińska, R. L. Veech & H. A. Krebs 57

The influence of osmolarity on the reduction of exogenous cytochrome *c* and permeability of the inner membrane of Jerusalem artichoke mitochondria.
*By* J. M. Palmer & B. I. Kirk 79

**Subcellular Structures**

Adenosine triphosphate. A constituent of cholinergic synaptic vesicles.
*By* M. J. Dowdall, A. F. Boyne & V. P. Whittaker 1

PAGE

Co-operative action by endo- and exo-$\beta$-(1→3)-glucanases from parasitic fungi in the degradation of cell-wall glucans of *Sclerotinia sclerotiorum* (Lib.) de Bary.
*By* D. Jones, A. H. Gordon & J. S. D. Bacon 47

The occurrence of two types of deoxyribonucleic acid polymerase activity in the main classes of nuclei obtained from the brains of infant and adult rats.
*By* M. A. Stambolova, D. Cox & A. P. Mathias 65

Mitochondrial and cytoplasmic ribosomes. Distinguishing characteristics and a requirement for the homologous ribosomal salt-extractable fraction for protein synthesis.
*By* N. G. Avadhani & B. E. Buetow 73

**Cellular Interactions and Control Processes**

Differential effects of 2-oxo acids on pyruvate utilization and fatty acid synthesis in rat brain.
*By* J. B. Clark & J. M. Land 25

Sterol structural requirements for inhibition of streptolysin O activity.
*By* K. C. Watson & E. J. C. Kerr 95

Regulation of hepatic lipogenesis by plasma free fatty acids: simultaneous studies on lipoprotein secretion, cholesterol synthesis, ketogenesis and gluconeogenesis (*Short Communication*).
*By* P. A. Mayes & D. L. Topping 111

**Metabolism in Whole Organisms**

The increased rate of ethanol removal from blood of clofibrate-treated rats (*Short Communication*).
*By* R. A. Hawkins, R. C. Nielsen & R. L. Veech 117

**General Methods**

An improved micro-method for avidin assay (*Short Communication*).
*By* H. Elo & P. Tuohimaa 115

# Contents of Volume 140, No. 2

PAGE

**Biosynthesis and Degradation**

Microbial degradation of alkylbenzenesulphonates. Metabolism of homologues of short alkyl-chain length by an *Alcaligenes* sp.
*By* J. A. Bird & R. B. Cain 121

Role of membrane-bound and free polyribosomes in the synthesis of cytochrome *c* in rat liver.
*By* N. F. González-Cadavid & C. S. de Córdova 157

Lipogenesis in rat and guinea-pig isolated epididymal fat-cells.
*By* E. D. Saggerson 211

Pathways of glyceride glycerol synthesis.
*By* R. Rognstad, D. G. Clark & J. Katz 249

Microbial oxidation of amines. Partial purification of a trimethylamine mono-oxygenase from *Pseudomonas aminovorans* and its role in growth on trimethylamine.
*By* C. A. Boulton, M. J. C. Crabbe & P. J. Large 253

Microbial metabolism of the pyridine ring. The hydroxylation of 4-hydroxypyridine to pyridine-3,4-diol (3,4-dihydroxypyridine) by 4-hydroxypyridine 3-hydroxylase.
*By* G. K. Watson, C. Houghton & R. B. Cain 265

Microbial metabolism of the pyridine ring. The metabolism of pyridine-3,4-diol (3,4-dihydroxypyridine) by *Agrobacterium* sp.
*By* G. K. Watson, C. Houghton & R. B. Cain 277

Microbial metabolism of the pyridine ring. Metabolism of 2- and 3-hydroxypyridines by the maleamate pathway in *Achromobacter* sp.
*By* R. B. Cain, C. Houghton & K. A. Wright 293

Glycogen metabolism in the liver of the foetal rat.
*By* P. Devos & H.-G. Hers 331

**Bioenergetics**

The inhibition of mitochondrial calcium transport by lanthanides and Ruthenium Red.
*By* K. C. Reed & F. L. Bygrave 143

**Subcellular Structures**

Glutamate and aspartate transport in rat brain mitochondria.
*By* M. D. Brand & J. B. Chappell 205

PAGE

The isolation and subfractionation of plasma membrane from the cellular slime mould *Dictyostelium discoideum*.
*By* A. A. Green & P. C. Newell 313

**Cellular Interactions and Control Processes**

The effect of nickel on secretory systems. Studies on the release of amylase, insulin and growth hormone.
*By* R. L. Dormer, A. L. Kerbey, M. McPherson, S. Manley, S. J. H. Ashcroft, J. G. Schofield & P. J. Randle 135

The uptake and metabolism of [$^{32}$P]pyrophosphate by mouse calvaria *in vitro*.
*By* A. Jung, S. Bisaz, U. Gebauer, R. G. G. Russell, D. B. Morgan & H. Fleisch 175

Effects of cytochalasin B, colchicine and vincristine on the metabolism of isolated fat-cells.
*By* E. G. Loten & B. Jeanrenaud 185

Utilization of gluconate by *Escherichia coli*. Uptake of D-gluconate by a mutant impaired in gluconate kinase activity and by membrane vesicles derived therefrom.
*By* J. M. Pouysségur, P. Faik & H. L. Kornberg 193

Calcium and magnesium ions as effectors of adipose-tissue pyruvate dehydrogenase phosphate phosphatase.
*By* D. L. Severson, R. M. Denton, H. T. Pask & P. J. Randle 225

The response of the small intestine to vitamin D. Isolation and properties of chick intestinal polyribosomes.
*By* J. S. Emtage, D. E. M. Lawson & E. Kodicek 239

Properties of a prolactin receptor from the rabbit mammary gland.
*By* R. P. C. Shiu & H. G. Friesen 301

Comparative effect and fate of non-entrapped and liposome-entrapped neuraminidase injected into rats.
*By* G. Gregoriadis, D. Putman, L. Louis & D. Neerunjun 323

PAGE

**Development**

Leucyl-transfer ribonucleic acid synthetase in senescing tobacco leaves.
*By* I. Nathan & A. Richmond 169

Aging effects on the liver aldolase of rabbits (*Short Communication*).
*By* P. J. Anderson 341

## Contents of Volume 140, No. 3

PAGE

**Biosynthesis and Degradation**

The mechanism of intestinal absorption of phosphatidylcholine in rats.
*By* S. Parthasarathy, P. V. Subbaiah & J. Ganguly 503

The metabolism of phenolic acids in the rat.
*By* S. Ranganathan & T. Ramasarma 517

Degradation of phosphoenolpyruvate carboxykinase (guanosine triphosphate) *in vivo* and *in vitro*.
*By* F. J. Ballard, M. F. Hopgood, L. Reshef & R. W. Hanson 531

**Bioenergetics**

Ionophore-mediated coupling between ion fluxes and amino acid absorption in mouse ascites-tumour cells. Restoration of the physiological gradients of methionine by valinomycin in the absence of adenosine triphosphate.
*By* M. Reid, L. E. Gibb & A. A. Eddy 383

Inhibition by local anaesthetics of adenine nucleotide translocation in rat liver mitochondria.
*By* T. L. Spencer & F. L. Bygrave 413

**Subcellular Structures**

Surface proteins of thymus-derived lymphocytes and bone-marrow-derived lymphocytes. Selective isolation of immunoglobulin and the θ-antigen by non-ionic detergents.
*By* R. E. Cone & J. J. Marchalonis 345

The role of ribonuclease II in the maturation of precursor 16S ribosomal ribonucleic acid in *Escherichia coli*.
*By* J. R. Dean & J. Sykes 443

PAGE

Studies on the lipid composition of the rat liver endoplasmic reticulum after induction with phenobarbitone and 20-methylcholanthrene.
*By* S. C. Davison & E. D. Wills 461

Solubilization and fractionation of glycoproteins and glycolipids of KB cell membranes.
*By* T. D. Butters & R. C. Hughes 469

Membrane glycopeptides from old and young human erythrocytes (*Short Communication*).
*By* C. Balduini, C. L. Balduini & E. Ascari 557

**Cellular Interactions and Control Processes**

Effects of bicarbonate on intercompartmental reducing-equivalent translocation in isolated parenchymal cells from rat liver.
*By* M. N. Berry, H. V. Werner & E. Kun 355

Hepatic drug hydroxylation and lipid peroxidation in riboflavin-deficient rats.
*By* J. M. Patel, N. R. Galdhar & S. S. Pawar 363

The concentration and control of cytoplasmic free inorganic pyrophosphate in rat liver *in vivo*.
*By* R. W. Guynn, D. Veloso, J. W. R. Lawson & R. L. Veech 369

Long-term effects of glucose on insulin release and glucose oxidation by mouse pancreatic islets maintained in tissue culture.
*By* A. Andersson 377

Effect of nitrate on the synthesis and decay of nitrate reductase of *Neurospora*.
*By* G. J. Sorger, M. T. Debanne & J. Davies 395

The biochemistry of virus-induced cell fusion. Changes in membrane integrity.
*By* C. A. Pasternak & K. J. Micklem 405

The effect of starvation on insulin secretion and glucose metabolism in mouse pancreatic islets.
*By* C. J. Hedeskov & K. Capito 423

PAGE

Changes in phylloquinone epoxidase activity related to prothrombin synthesis and microsomal clotting activity in the rat.
*By* A. K. Willingham & J. T. Matschiner 435

Treatment of immature mice with gonadotrophins. Effects on some enzymic activities of unfractionated ovarian homogenates.
*By* T. A. Bramley 451

Requirement for adenosine triphosphate for stimulation *in vivo* of ox growth-hormone release.
*By* M. McPherson & J. G. Schofield 479

Cytotoxic effects of streptozotocin and *N*-nitrosomethylurea on the pancreatic B cells with special regard to the role of nicotinamide–adenine dinucleotide.
*By* R. Gunnarsson, C. Berne & C. Hellerström 487

High-affinity binding of oestradiol-17$\beta$ by cytosols from testis interstitial tissue, pituitary, adrenal, liver and accessory sex glands of the male rat.
*By* W. M. O. van Beurden-Lamers, A. O. Brinkmann, E. Mulder & H. J. van der Molen 495

Compartmentation of free amino acids for protein synthesis in rat liver.
*By* J. Airhart, A. Vidrich & E. A. Khairallah 539

PAGE

*Appendix*: Analysis of the specific radioactivity of valine isolated from aminoacyl-transfer ribonucleic acid of rat liver.
*By* C. S. Wallyn, A. Vidrich, J. Airhart & E. A. Khairallah 545

Biotin-mediated protein biosynthesis.
*By* R. L. Boeckx & K. Dakshinamurti 549

Effects of fructose, sucrose and glucose feeding on plasma insulin concentrations and on adipose-tissue clearing-factor lipase activity in rat (*Short Communication*).
*By* A. Cryer, S. E. Riley, E. R. Williams & D. S. Robinson 561

Effects of $\alpha$-amanitin on the stimulation of prostatic ribonucleic acid polymerase by prostatic steroid–protein receptor complexes (*Short Communication*).
*By* P. Davies & K. Griffiths 565

**Development**

Diurnal rhythms of hepatic carbohydrate metabolism during development of the rat.
*By* P. R. Walker, R. J. Bonney & V. R. Potter 523

**Metabolism in Whole Organisms**

Involvement of binding lipoproteins in the absorption and transport of $\alpha$-tocopherol in the rat.
*By* O. V. Rajaram, P. Fatterpaker & A. Sreenivasan 509
